## Corporate Overview

Founded in 2006, Aesa Consulting has provided clients with experienced professionals to identify, implement and deliver optimal business solutions for telecom expense and inventory management. Our attention to detail and risk management strategies enable us to offer clients the assistance needed to guarantee successful project completion and return on investment. With team members having over 20 years of experience in telecommunications and saving clients in excess of \$2.4B, we are confident our team has the knowledge and experience to achieve your goals.
